

Extraordinary care, just for kids!

Children's Hospital
New Orleans
LCMC Health

At Children's Hospital New Orleans, our promise is to shape a better future for kids. For nearly 70 years, we've delivered expert healthcare for children across our state and region. In 2023, we proudly cared for more than 580,000 children—the most ever in our history—as Louisiana's only freestanding, comprehensive children's hospital.

Our can count on the extraordinary care provided by the pediatric-trained experts at Children's Hospital, from the most complex pediatric procedures, to the everyday health of children and adolescents. From our main campus in Uptown New Orleans, to satellite locations in Alexandria, Baton Rouge, Covington, Lafayette, Hammond, and Metairie, and 14 pediatric primary care locations, we're working to ensure that families across our state and region have access to specialized pediatric healthcare close to home. Each year, Children's Hospital cares for children from all 64 parishes in Louisiana, from across the Gulf South, and beyond.

Children's Hospital is proud to be the only pediatric facility in the state of Louisiana to incorporate two academic pediatric medical programs under one roof. Through partnerships with LSU Health New Orleans and Tulane University School of Medicine, the vibrant academic medical community at Children's Hospital provides unparalleled opportunities for educational enhancement, innovation, and improved access to pediatric healthcare, close to home.

Our history and growth

1955

Crippled Children's Hospital founded in New Orleans as a 53-bed rehabilitation facility for children during the polio epidemic.

19-1951-070324

1970

Children's Hospital expanded to become Louisiana's first full-service Children's Hospital, dropping the name "Crippled Children's Hospital."

2009

Following Hurricane Katrina, Children's Hospital partners with Touro Infirmary, forming LCMC Health. LCMC Health is proud to be the only health system in the country founded by a freestanding children's hospital.

2021

Children's Hospital completes a \$300 million campus expansion, transforming pediatric healthcare for children across Louisiana and the Gulf South.

2023

Children's Hospital New Orleans and Our Lady of the Lake Children's Health form statewide pediatric partnership to improve health outcomes for kids across Louisiana.

Lucio A. Fragoso
President &
Chief Executive Officer
Children's Hospital
New Orleans

"Children's Hospital is dedicated to creating a healthier, happier future for children across Louisiana, the Gulf South, and beyond by offering the most advanced medical care for children within the four walls of our hospital and clinics, and through comprehensive community programs that help address disparities in health equity while supporting our most venerable youth."

Our locations

Outpatient appointments with pediatric specialists are offered on Children's Hospital's main campus, as well as our satellite locations throughout Louisiana and Mississippi. Children's Hospital offers specialty care at clinics in Metairie, on the Northshore, in Baton Rouge, Lafayette, Alexandria and Diamondhead, MS.

In addition to these satellite locations, our specialists see patients in Houma, Lake Charles, Monroe, Slidell, and Thibodaux.

Pediatric Primary Care

On healthy days and sick days—and for any health needs in between—the pediatricians at Children's Hospital are here for families across the Greater New Orleans area. With 13 locations throughout Southeast Louisiana, our pediatricians are dedicated to caring for children from birth through adolescence, serving more than 130,000 children every year.

Building our future

Children's Hospital has made a significant investment in the future of pediatric healthcare with a \$300 million transformation project that reached completion in November 2021, expanding the hospital's footprint by 235,000 square feet. This transformation allows us to deliver the most advanced care possible, with innovative approaches to care delivery, academics, and an unmatched patient and family experience. The expansion included all new cancer, emergency, cardiac intensive care, and surgical centers, along with a free-standing behavioral health center. Our expansion was designed with the patient and family at the center, with a new outpatient pavilion, 600-car parking garage and skybridge, family housing, improved dining, and a dedicated child life center.

Community support

Children's Hospital understands that transforming care for children happens beyond the walls of our hospital and clinics. In 2023, we invested more than \$16M in vital community programs, along with philanthropic support. These include:

- The CARE Center (Child Abuse Pediatrics)
- Limited Intervention Psychology Program
- Autism Center
- The Parenting Center
- Ventilator-Assisted Care Program
- Cochlear Implant Program
- Immunization Program
- Miracle League
- Hogs for the Cause Family Center
- ThriveKids Student Wellness Project
- Juvenile Justice Intervention Center partnership
